This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

Have you tried THE Spencerian Steel Pens?

THE STEEL PENS that give the most satisfaction are those that have an easy free action, smooth points, and last the longest. The action depends on the quality of the steel, the points on experienced workmanship, the durability on the tempering, grinding and slitting.

For nearly **Fifty Years** we have maintained the reputation among expert and careful writers for making the

BEST STEEL PENS.

The leading patterns for correspondents, accountants, and rapid writers, viz. :

No. 1. COLLEGE

Used by the best penmen in the United States and Canada.

No. 2.  COUNTING HOUSE

For the use of Correspondents and Accountants.

No. 3. COMMERCIAL

Easy writing business pen.

No. 5. SCHOOL

***Medium* flexibility for Schools.**

No. 9. BANK

Long flexible point for figuring.

No. 16. OFFICIAL

For bold, easy commercial writing.

No. 23. FALCON

Perfect shape for easy writing—silver plated.

No. 27. STANDARD

Medium point, strong and durable—gold plated.

No. 28.  CONGRESSIONAL

Blunt circular point, quill action—nickel plated.

No. 35 F.
" 35 M. ROYAL

Long flexible blunt point. Fine and medium points.

No. 37 F.
" 37 M. VERTICAL

Two points, slightly stiff. Fine and medium.

The **complete Sample Card** of **Spencerian Pens** comprises **42 pens,** different patterns, points and action, which will be sent post paid on receipt of 25 cents, or **a card of the 12 pens** as illustrated on receipt of **10 cents** in coin or postage stamps.

Spencerian Pen Company,

New York City.

UNIVERSAL

INTEREST TABLES

AT 4, 5, 6, 7, 8, AND 10 PER CENT.

COMPUTED BY

PROF. GEORGE WILLIAM JONES,
OF CORNELL UNIVERSITY,

AND

GUARANTEED CORRECT.

EXPLANATION OF TABLES.

—o—

THERE are three tables; they have been computed three times over with great care, and verified by every known test; they are believed to be absolutely correct.

The first table (pp. 1-118) gives the SIMPLE INTEREST at 4, 5, 6, 7, 8, and 10 per cent, to the nearest cent, for $1, $2, $3, .. $100; then for even hundreds up to $1,000; then for even thousands up to $10,000. It gives the interest for 1 day, 2 days, 3 days, .. 30 days, or 1 month, then for 2 months, 3 months, .. 12 months, or 1 year.

The second table (p. 119) gives the SIMPLE INTEREST of $1 at 4, 5, 6 7, 8, and 10 per cent, to thousandths of a cent, for any number of days or months, and for one year.

The third table (p. 120) gives the amount of $1 at COMPOUND INTEREST, to thousandths of a cent, for 1 year, 2 years, 3 years, .. 20 years, at 2, 2½, 3, 3½, 4, 4½, 5, 6, 7, 8, 9, and 10 per cent.

TO USE THE FIRST TABLE (PAGES 1-118).

THE PRINCIPAL LESS THAN $100, OR EVEN HUNDREDS, OR EVEN THOUSANDS. *Find the number of dollars at the top of the page. Under the given rate per cent find the interest for one year, and multiply it by the number of years. Under this product write the interest for the months, and for the days. Add; the sum is the interest sought.*

To find the interest of $500 at 7 per cent for 3 y. 6 m. 17 d.

On p. 104, find $500; under 7 p. c. and opposite 1 year is . . .		$35.00.
Multiply this $35.00 by 3 for 3 yrs.	$105.00	
Under 7 p. c. and opposite 6 mos., is	17.50	
Under 7 p. c. and opposite 17 days, is	1.65	
and the whole interest is	$124.15	

ANY PRINCIPAL: *As above, take out the interest on different pages, of the even thousands, of the even hundreds, and of the dollars less than $100; and for the cents take out the interest of the same number of dollars and take a hundredth part of it. Add these sums together.*

To find the interest of $3,877.47 at 5 per cent for 1 y. 8 m. 12 d.

Under 5 p. c.	$3,000, p. 111;	$800, p. 107;	$77, p. 77;	47c., p. 47;	totals.
for 1 yr.,	$150.00	$40.00	$3.85	.0235	$255.00
for 8 mos.,	100.00	26.67	2.57	.0157	68.00
for 12 days,	5.00	1.33	.13	.0008	6.55
	$255.00	$68.00	$6.55	.04	.04

and the whole interest is $329.59

NOTE.—It is possible, by the use of this table, to get a result which differs from the true interest by a single cent. or even two cents. The true interest of $3,877.47, for the time and rate above given, is 329.58\frac{485}{1000}$, instead of $329.59. The reason is, that the table is only computed to the nearest cent, and it may happen that the fractions of a cent all get on one side.

TO USE THE SECOND TABLE (PAGE 119).

Under the given rate per cent find the interest of $1 for a year, and multiply it by the number of years. Under this product write the interest for the months and for the days. Add; and multiply the sum into the principal. Point off five places at the right of this product if the principal is even dollars, and seven places if it have cents. The figures to the left of the decimal point are the dollars, and the first two to the right are the cents, of the interest sought. If the third figure to the right be 5 or more, take one more cent.

To find the interest of $3,877.47, at 5 per cent, for 1 y. 8 m. 12 d.

Under 5 p. c. and opposite 1 yr. is	.05000	$3,877.47
Under 5 p. c. and opposite 8 mos. is	.03333	.08500
Under 5 p. c. and opposite 12 days is	.00167	19.3873500
and the interest is $329.58.	.08500	310.1976
		$329.5849500

TO USE THE THIRD TABLE (PAGE 120).

THE INTEREST COMPOUNDED YEARLY: *Under the given rate per cent and opposite the number of years find the amount of $1; and multiply it into the principal. For the interest alone, subtract the principal from this product. Use the nearest cent.*

To find the amount, and the compound interest, of $255 at 4½ per cent for 10 years.

Under 4½ p. c. and opposite 10 yrs. is 1.55297.

$255 × 1.55297 = $396.00735 = $396.01, the amount.
$396.01 − $255 = $141.01, the compound interest.

THE INTEREST COMPOUNDED HALF-YEARLY: *Use the half-yearly rate per cent and the number of half-years, in the above rule.*

To find the amount of $1,175, deposited for 2 yrs. 6 mos. in a savings bank which pays 2 per cent half-yearly.

Under 2 p. c. and opposite 5 half-years is $1.10408.

$1175 × 1.10408 = $1,297.29, the amount sought.

☞ These tables are computed on the basis of 30 days one month, and 12 months one year.

STEEL PENS.

HISTORICAL. The manufacture of pens made of steel dates back to 1780, when Mr. Samuel Harrison, in England, made the first pens at all resembling the modern article

For about fifty years the few that were used in place of the quill, were made by hand and crude machinery by enthusiasts who thought they saw a future in metallic pens. They consisted of a handle and point in one piece, commonly called barrel pens, the point being filed into shape from a piece of steel tubing.

It was not until about 1830 that slip pens were made (that is, pens to slip into the holder), and the popular prejudice against steel pens then began to give way. These first experiments were made in Birmingham, England, where the industry developed; and at the present time by far the largest manufacturers in the world are the successors to the original experimenters in that city. The manufacturers of Birmingham now consume more than twenty tons of steel per week in making this indispensable article of modern times.

PROCESS OF MANUFACTURE. In transforming sheets of steel into perfectly finished pens, there are fourteen processes. Some of these are mechanical, but others require great accuracy, skill, and judgment to produce a perfect result. The operations may be summed up as follows:

1st.—**Annealling,** or softening the sheets of steel by heating and allowing them to cool slowly.

2d.—**Cleaning and Rolling** to the required thickness. As there are many gradations of thickness necessary for different shapes of pens, this is an exceedingly important operation, and requires the nicest adjustment to secure absolute uniformity.

3d.—**Cutting the blank** with the use of press and die of the shape to form the pen designed.

4th.—**Marking** the name with press and stamp.

5th.—***Piercing*** the holes with press and punch.

6th.—***Second* Annealing.**

The Spencerian Pen Company.

349 Broadway
NEW YORK.

Proprietors of the Standard American Brand

Spencerian Steel Pens

ESTABLISHED 1860.

SUPERIORITY OF METAL, UNIFORMITY, DURABILITY, and EXPERT WORKMANSHIP.

Complete Sample Card, containing 42 Different Patterns for every style of writing, will be sent post paid on receipt of 25 cents.
